

AccessMyLab™

View your insurance lab test results securely, conveniently

By applying for a life insurance policy, you've taken an important step in protecting yourself and your family. Laboratory testing is an important part of your insurance application health exam. As an added service to help you stay informed about your own health, your insurance company and Clinical Reference Laboratory (CRL®) have partnered to deliver your lab results in a secure, yet simple manner.

It's called AccessMyLab™ from CRL. AccessMyLab™ is a secure electronic test result delivery solution. There are no additional forms for you to fill out and no new user name or password to remember. When your results are ready you can view them online, print them out for your records, or share them with your personal physician.

HERE'S HOW IT WORKS

1. Go to www.AccessMyLab.com and enter your Slip ID located on the consent form provided by the examiner at the time of exam.
2. When prompted, enter the last four digits of your phone number.
3. A PIN will be provided via text or voice message from our Interactive Voice System.
4. Enter the PIN to view your lab report online.
5. Save or print!

BENEFITS FOR LIFE INSURANCE APPLICANTS

- Convenient: no paper forms to fill out and return, no registration required, no user name or password to remember
- Speedy: online access delivers faster service than mailing
- Available: unique authentication process offers quick, secure access to results from any Internet connected device
- Flexible: print out or share results with your personal physician

CRL'S COMMITMENT TO SECURITY

CRL is committed to ensuring lab and health information is protected via the industry's latest security measures. Keeping lab results secure online is one of our most important responsibilities. AccessMyLab™ was developed to keep sensitive health information protected through a secure, yet intuitive, interface. Plus, it offers flexibility in how results are shared and used.

ABOUT CRL

Clinical Reference Laboratory provides life insurance companies with fast, accurate laboratory testing. Each specimen in our laboratory represents a life. Our employees recognize that the work we do for our clients helps enable individuals to lead healthy, safe, protected lives.
